

Ximian Desktop

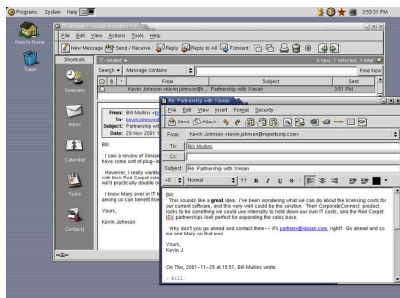

The Complete Productivity Solution for Linux

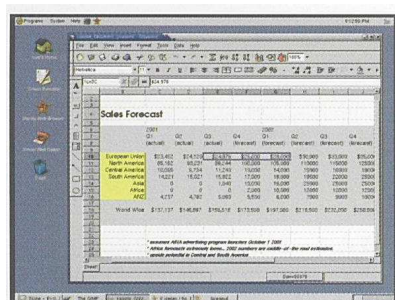

Ximian Desktop is the powerful, easy-to-use productivity solution for Linux.

Built-in software management with Ximian Red Carpet keeps your system up-to-date automatically.

Manage your email, schedule, contacts and to-do list with Ximian Evolution.

All the essential business tools are included, from word processing and spreadsheets to graphics, image editing and much more.

Ximian™ Desktop is a complete productivity solution for Linux users, combining and integrating key applications that put Linux desktops to work. The software provides an elegant, easy-to-use graphical interface for Linux plus complete, powerful business solutions that help you get started quickly and stay productive. The applications in Ximian Desktop are designed to help you share files and collaborate with your colleagues that use different computing environments. Best of all, you can use Ximian Desktop on virtually all of the most popular Linux distributions such as Red Hat, Mandrake, SuSE, Yellow Dog and more.

Ximian Desktop starts with Ximian GNOME, the most popular graphical user interface for Linux users and includes a host of popular productivity applications. Comprehensive communications and personal information management is provided through Ximian Evolution™. Mozilla delivers full-featured Internet browsing. Sun® StarOffice™, available in Ximian Desktop Professional Edition, includes Linux applications for word processing, spreadsheet, presentations and more that are compatible with Microsoft Office standards. Ximian Desktop also includes many additional applications and tools for graphics editing, personal financial management and much more. Finally, through Ximian Red Carpet™, the powerful software and version management solution, you keep your entire Linux desktop up-to-date, automatically, efficiently and securely.

Ximian Desktop

The Complete Productivity Solution for Linux

Ximian Desktop provides everything you need to put your Linux desktop to work. It includes Ximian GNOME, the market-leading, easy-to-use graphical interface for the broadest range of popular Linux distributions. Ximian Desktop offers a full suite of Ximian and third-party applications that enhance your productivity, speed communications and simplify software management.
